Author Index

Aggarwal, G.C. and Sidhu, A.S. (Ludhiana, India)
Effect of irrigation and nitrogen on maize-cowpea fodder intercropping at Ludhiana, India: advantages and intercrop competition 177
Allen, S.G. and Nakayama, F.S. (Phoenix, AZ, U.S.A.)
Relationship between crop water stress index and ohter physiological plant water status indicators in guayule 287
Berrios, D., *see* Midmore, D.J. et al.
Bhuiya, A.D., *see* Shamsuzzaman, K.M. et al.
Bush, M.G. and Evans, L.T. (Canberra, A.C.T., Australia)
Growth and development in tall and dwarf isogenic lines of spring wheat 243
Casano, L.M., *see* Morandi, E.N. et al.
Chevalier, P., *see* Hagemann Wiedenhoeft, M. et al.
Ciha, A.J., *see* Hagemann Wiedenhoeft, M. et al.
Constable, G.A. and Rose, I.A. (Narrabri, N.S.W., Australia)
Variability of soybean phenology response to temperature, daylength and rate of change in daylength 57
Copeland, L.O. (East Lansing, MI, U.S.A.)
Book review of *Physiology of Seed Deterioration*, by M.B. McDonald and C.J. Nelson (Editors) 298
Davis, R., *see* Muchow, R.C. and Davis, R.
Dobson, R.L., *see* Nguu, N.V. et al.
Dutta, R.K., *see* Shamsuzzaman, K.M. et al.
Evans, L.T. (Canberra, A.C.T., Australia)
Book review of *On the Economy of Plant Form and Function*, by T.J. Givnish (Editor), *see also* Bush, M.G. and Evans, L.T. 208
Evenson, J.P. (Burpengary, Australia)
Book review of *Potential Production of Natural Rubber from Guayule in Australia*, by G.A. Stewart and S.M. Lucas (Editors) 297
Fukai, S., *see* Lilley, J.M. et al.
Gibbons, J.W., *see* Nguu, N.V. et al.
Hagemann Wiedenhoeft, M., Chevalier, P., Walker-Simmons, M. and Ciha, A.J. (Pullman, WA, U.S.A.)
Field studies on abscisic acid and embryonic germinability in winter wheat 271
Hall, A.J., *see* Sadras, V.O. and Hall, A.J.
Hicks, L.N., *see* Lilley, J.M. et al.
Hocking, P.J., *see* Steer, B.T. et al.
Horst, W. (Hannover, West Germany)
Book review of *Fertilizer Technology and Use*, by O.P Engelstad (Editor) 211
Kirby, E.J.M. (Nedlands, W.A., Australia)
Analysis of leaf, stem and ear growth in wheat from terminal spikelet stage to anthesis ... 127
Klepper, B. (Pendleton, OR, U.S.A.)
Book review of *Roots, Nutrient and Water Influx and Plant Growth*, by S.A. Barber and D.R. Bouldin (Editors) 210
Kresovich, S. (Geneva, NY, U.S.A.)
Book review of *Sugarcan Improvement through Breeding*, by D.J. Heinz (Editor) 207
Larson, R.A., *see* McGuire, C.F. et al.
Leihner, D.E., *see* Mason, S.C. and Leihner, D.E.
Lenz, F., *see* Witzenberger, A. et al.
Lilley, J.M., Fukai, S. and Hicks, L.N. (St. Lucia, Qld., Australia)
Growth and yield of perennial cassava in the subhumid subtropics 45

Low, A., *see* Steer, B.T. et al.
Malafant, K., *see* Shamsuzzaman, K.M. et al.
Mason, S.C. (Lincoln, NE, U.S.A.) and Leihner, D.E. (Stuttgart, West Germany)
Yield and land-use efficiency of a cassava/cowpea intercropping system grown at different phosphorus rates 215
McGuire, C.F. (Bozeman, MT, U.S.A.), Stallknecht, G.F. and Larson, R.A. (Huntley, MT, U.S.A.)
Impact of cropping systems on end-use quality of hard red spring wheat 203
Midmore, D.J., Roca, J. and Berrios, D. (Lima, Peru)
Potato (*Solanum* spp.) in the hot tropics. IV. Intercropping with maize and the influence of shade on potato microenvironment and crop growth 141
Midmore, D.J., Berrios, D. and Roca, J. (Lima, Peru)
Potato (*Solanum* spp.) in the hot tropics. V. Intercropping with maize and the influence of shade on tuber yields 159
Morandi, E.N., Casano, L.M. and Reggiardo, L.M. (Rosario, Argentina)
Post-flowering photoperiodic effect on reproductive efficiency and seed growth in soybean 227
Muchow, R.C. (Winnellie, N.T., Australia)
Effect of nitrogen supply on the comparative productivity of maize and sorghum in a semi-arid tropical environment. I. Leaf growth and leaf nitrogen 1
Effect of nitrogen supply on the comparative productivity of maize and sorghum in a semi-arid tropical environment. III. Grain yield and nitrogen accumulation, *see also* Muchow, R.C. and Davis, R., *see also* Sinclair, T.R. et al. 31
Muchow, R.C. (Winnellie, N.T., Australia) and Davis, R. (St. Lucia, Qld., Australia)
Effect of nitrogen supply on the comparative productivity of maize and sorghum in a semi-arid tropical environment. II. Radiation interception and biomass accumulation 17
Nakayama, S., *see* Allen, S.G. and Nakayama, F.S.
Nguu, N.V., Gibbons, J.W. and Dobson, R.L. (Ibadan, Nigeria)
Performance of rice (*Oryza sativa*) on slopes of inland valleys in west Africa 113
Oram, R.N., *see* Shamsuzzaman, K.M. et al.
Prakasa Rao, E.V.S., Singh, M. and Ganesha Rao (Bangalore, India)
Intercropping studies in Java citronella (*Cymbopogon winterianus*) 279
Reggiardo, L.M., *see* Morandi, E.N. et al.
Roca, J., *see* Midmore, D.J. et al.
Rose, I.A., *see* Constable, G.A. and Rose, I.A.
Russell, J.S. (Brisbane, Qld., Australia)
Book review of *Soybeans: Improvement, Production, and Uses*, by J.R. Wilcox (Editor) 299
Sadras, V.O. and Hall, A.J. (Buenos Aires, Argentina)
Quantification of temperature, photoperiod and population effects on plant leaf area in sunflower crops 185
Shaikh, M.A.Q., *see* Shamsuzzaman, K.M. et al.
Shamsuzzaman, K.M. (Mymensingh, Bangladesh), Oram, R.N., Malafant, K. (Canberra, A.C.T., Australia), Shaikh, M.A.Q., Bhuiya, A.D. and Dutta, R.K. (Mymensingh, Bangladesh)
Fibre yield of mutants of white jute (*Corchorus capsularis*) with altered phenological development patterns 101
Shibles, R. (Ames, IA, U.S.A.)
Book review of *Multiple Cropping Systems*, by C.A. Francis (Editor) 87

Sidhu, A.S., *see* Aggarwal, G.C. and Sidhu, A.S.
Sinclair, T.R., Zimet, A.R. (Gainesville, FL, U.S.A.) and Muchow, R.C. (Winnellie, NT, Australia)
Changes in soybean nodule number and dry weight in response to drought 197
Singh, M., *see* Prakasa Rao, E.V.S. et al.
Stallknecht, G.F., *see* McGuire, C.F. et al.
Steer, B.T., Hocking, P.J. and Low, A. (Griffith, N.S.W., Australia)
Dry matter, minerals and carbohydrates in the capitulum of sunflower (*Helianthus annuus*): effects of competition between seeds, and defoliation 71
Walker-Simmons, M., *see* Hagemann Wiedenhoeft, M. et al.
Williams, J.H., *see* Witzenberger, A. et al.
Witzenberger, A. (Bonn, West Germany), Williams, J.H. (Andhra Pradesh, India) and Lenz, F. (Bonn, West Germany)
Influence of daylength on yield-determining processes in six groundnut cultivars (*Arachis hypogaea*) 89
Zimet, A.R., *see* Sinclair, T.R. et al.

Subject Index

Abscisic acid
  Abscisic acid and germinability in winter wheat 271
Arachis hypogaea
  Daylength, influence of on yield 89
  Intercropping with *Cymbopogon winterianus* 279
Cassava, *see Manihot* spp.
Competition
  Dry matter, minerals and carbohydrates in *Helianthus annuus*: competition between seeds, and defoliation 71
  Irrigation and nitrogen, effect on maize-cowpea intercropping: advantages and competition 177
Corchorus capsularis
  Fibre yield with altered phenological development 101
Cowpea, *see Vigna* spp.
Cymbopogon winterianus
  Intercropping with *Arachis hypogaea* 279
Defoliation
  Dry matter, minerals and carbohydrates in *Helianthus annuus*: competition between seeds, and defoliation 71
Eleusine spp.
  Intercropping with *Cymbopogon winterianus* 279
Environmental effects, *see* Water regime
  see also Photoperiod
    see also Temperature regime
Fertilizers, *see* Nutrient dynamics
Germinability
  Physiology of Seed Deterioration (book review) 298
  Wheat, winter, abscisic acid and germinability 271
Glycine max
  Drought response, changes in nodule number and dry weight 197
  Improvement, Production, and Uses (book review) 299
  Reproductive efficiency and seed growth, photoperiod effect on 227
  Temperature, daylength and rate of change in daylength, response to 57
Groundnut, *see Arachis hypogaea*
Guayule, *see Parthenium* spp.
Heat sums, *see* Temperature regime
Helianthus annuus
  Dry matter, minerals and carbohydrate: competition between seeds, and defoliation 71
  Temperature, photoperiod and population effects on leaf area 185
Indexes of growth
  Guayule, relationship between water stress index and other physiological plant water status indicators 287
  Temperature, photoperiod population effects on leaf area in sunflower 185
Intercropping, *see* Multiple cropping systems
Irrigation, *see* Water regime
Java citronella, *see Cymbopogon winterianus*
Jute, *see Corchorus capsularis*
Land-use efficiency
  Yield of a cassava/cowpea intercrop at different phosphorus rates 215

Leaf area index, *see* Indexes of growth
Legumes
Arachis hypogaea, influence of daylength on yield 89
Maize-cowpea intercropping: effect of irrigation and nitrogen on 197
Soybean, changes in nodule number and dry weight in response to drought 197
Soybeans: Improvement, Production, and Uses (book review) 299
Soybean reproductive efficiency and seed growth, photoperiod effects on 227
Soybean response to temperature, daylength and rate of change in daylength 57
Maize, *see Zea mays*
Manihot spp.
Yield and land-use efficiency of a cassava/cowpea intercrop at different phosphorus rates 215
Multiple cropping systems
Cassava/cowpea intercrop at different phosphorus rates, yield and land-use efficiency of 215
Cymbopogon winterianus, intercropping studies in 279
Maize-cowpea intercropping: effect of irrigation and nitrogen 177
Multiple Cropping Systems (book review) 87
Solanum spp. in the hot tropics.
IV Intercropping with maize and the influence of shade on crop growth 141
V. Intercropping with maize and the influence of shade on tuber yields 159
Wheat, spring, impact of cropping systems on quality of 203
Nitrogen, *see* Nutrient dynamics
Nutrient dynamics
Cassava/cowpea intercrop, yield and land-use efficiency at different phosphorus rates 215
Dry matter, minerals and carbohydrates in *Helianthus annuus*: competition between seeds, and defoliation 71
Fertilizer Technology and Use (book review) 211
Maize-cowpea intercropping: effect of irrigation and nitrogen 177
Nitrogen supply, effect on the comparative productivity of maize and sorghum in a semi-arid tropical environment
I. Leaf growth and leaf nitrogen 1
II. Radiation interception and biomass accumulation 17
III. Grain yield and nitrogen accumulation 31
Roots, Nutrient and Water Influx and Plant Growth (Book review) 210
Nutrient dynamics
Soybean reproductive efficiency, and seed growth, Photoperiod effect on 227
Oryza sativa
Performance on slopes of inland valleys 113
Parthenium spp.
Potential Production of Natural Rubber from Guayule in Australia (book review) 297
Water stress index, relationship with other physiological plant water status indicators in guayule 287
Peanut, *see Arachis hypogaea*
Pests, weeds and disease
Oryza sativa, performance on slopes of inland valleys 113
Phosphorus, *see* Nutrient dynamics
Photoperiod
Arachis hypogaea, influence on yield 89
Helianthus annuus leaf area, temperature, photoperiod and population effects on 185
Soybean reproductive efficiency and seed growth, photoperiod effect on 227
Soybean response to temperature, daylength and rate of change in daylength 57

Plant structure and function
On the Economy of Plant Form and Function (book review) 208
Roots, Nutrient and Water Influx and Plant Growth (book review) 210
Population density
Temperature, photoperiod and population effects on leaf area in *Helianthus annuus* 185
Potato, *see Solanum* spp.
Productivity
Cassava/cowpea intercrop, yield and land-use efficiency at different phosphorus rates 215
Helianthus annuus: dry matter, minerals and carbohydrates competition between seeds, and defoliation 71
Helianthus annuus leaf area, temperature, photoperiod and population effects on 185
Nitrogen supply, effect on the comparative productivity of maize and sorghum in a semi-arid tropical environment
I. Leaf growth and leaf nitrogen 1
II. Radiation interception and biomass accumulation 17
III. Grain yield and nitrogen accumulation 31
Oryza sativa, performance on slopes of inland valleys 113
Physiology of Seed Deterioration (book review) 298
Roots, Nutrient and Water Influx and Plant Growth (book review) 210
Soybean, changes in nodule number and dry weight in response to drought 197
Soybeans: Improvement, Production, and Uses (book review) 299
Soybean, reproductive efficiency and seed growth, photoperiod effect on 277
Wheat, spring, growth and development in tall and dwarf lines 243
Radiation interception
Effect of nitrogen supply on the comparative productivity of maize and sorghum in an semi-arid tropical environment. II. Radiation interception and biomass accumulation 17
Reproductive efficiency
Photoperiod effect on reproductive efficiency and seed growth in soybean 227
Rice, *see Oryza sativa*
Rubber, *see Parthenium* spp.
Saccharum spp.
Sugarcane Improvement through Breeding (book review) 207
Seed deterioration
Physiology of Seed Deterioration (book review) 298
Seed growth, *see* Productivity
Semi arid environment, *see* Water regime
Shading
Solanum spp. in the hot tropics.
IV. Intercropping with maize and the influence of shade on crop growth 141
V. Intercropping with maize and the influence of shade on tuber yields 159
Solanum spp.
Potato in the hot tropics.
IV. Intercropping with maize and the influence of shade on crop growth 141
V. Intercropping with maize and the influence of shade on tuber yields 159
Sorghum spp.
Intercropping with *Cymbopogon winterianus* 279
Nitrogen supply, effect on the comparative productivity of maize and sorghum in a semi-arid tropical environment.
I. Leaf growth and leaf nitrogen 1
II. Radiation interception and biomass accumulation 17

III. Grain yield and nitrogen accumulation 31
Soybean, *see Glycine max*
Sugarcane, *see Saccharum* spp.
Sunflower, *see Helianthus annuus*
Temperature regime
Helianthus annuus leaf area, temperature, photoperiod and population effects on 185
Solanum spp.
Potato in the hot tropics.
IV. Intercropping with maize and the influence of shade on crop growth..... 141
V. Intercropping with maize and the influence of shade on tuber yields..... 159
Soybean response to temperature, daylength and rate of change in daylength 57
Triticum spp.
Abscisic acid and germinability in winter wheat 271
Cropping systems, impact on quality of spring wheat 203
Growth and development in tall and dwarf lines of spring wheat 243
Growth from terminal spikelet stage to anthesis 127
Variety trials
Arachis hypogaea yield, influence of daylength on 89
Cassava in the subtropics, growth and yield 45
Corchorus capsularis, fibre yield with altered phenological development 101
Helianthus annuus leaf area, temperature, photoperiod and population effects 185
Oryza sativa, performance on slopes of inland valleys 113
Solanum spp. in the hot tropics
IV. Intercropping with maize and the influence of shade on crop growth..... 141
V. Intercropping with maize and the influence of shade on tuber yields 159
Soybean response to temperature, daylength and rate of change in daylength 57
Wheat, spring, growth and development in tall and dwarf lines 243
Wheat, spring, impact of cropping systems on quality of 203
Wheat, winter, abscisic acid and germinability in 271
Vigna spp.
Cassava/ cowpea intercrop, yield and land-use efficiency at different phosphorus rates ... 215
Intercropping with *Cymbopogon winterianus* 279
Maize-cowpea intercropping: effect of irrigation and nitrogen 177
Water regime
Cassava in the subtropics, growth and yield 45
Drought response in soybean, changes nodule numbers and dry weight 197
Nitrogen supply, effect on the comparative productivity of maize and sorghum in a semi-arid tropical environment
I. Leaf growth and leaf nitrogen 1
II. Radiation interception and biomass accumulation 17
III. Grain yield and nitrogen accumulation 31
Oryza sativa performance on slopes of inland valleys 113
Roots, Nutrient and Water Influx and Plant Growth (book review) 210
Water stress index, relationship with other physiological plant water status indicators in guayule 287
Wheat, *see Triticum* spp.
Zea mays
Maize-cowpea intercropping: effect of irrigation and nitrogen 177
Nitrogen supply, effect on the comparative productivity of maize and sorghum in a semi-arid tropical environment.
I. Leaf growth and leaf nitrogen 1
II. Radiation interception and biomass accumulation 17

III. Grain yield and nitrogen accumulation 31
Solanum spp. in hot tropics
IV. Intercropping with maize and the influence of shade on crop growth 141
V. Intercropping with maize and the influence of shade on tuber yields 159
